## **User Story: with Examples & Templates**

User stories are a few sentences in simple language that outline the desired outcome. They don't go into detail. Requirements are added later, once agreed upon by the team. Stories fit neatly into agile frameworks like scrum and kanban. In scrum, user stories are added to sprints and “burned down”

## **Writing User Stories, Examples and Templates In Agile**

...

A user story is a short (a sentence or two), simple, and specific description of an interaction with an in-development product, usually an app or website. (Of course, they can also be used for the development of other projects.) User stories are used as a

# Get Free Sample User Stories Document

framework to guide  
developers, designers,  
product managers,...

## **Download Free User Story Templates |Smartsheet**

User stories are short,  
simple descriptions of  
a feature told from the  
perspective of the  
person who desires the  
new capability, usually  
a user or customer of  
the system. They  
typically follow a  
simple template: As a

# Get Free Sample User Stories Document

< type of user >, I  
want < some goal > so  
that < some reason >.

## **User Stories and User Story Examples by Mike Cohn**

The format of a user  
story is: As a (type of  
user), I want to  
(feature/function) so  
that (reason/benefit).

The purpose of the  
agile user story is to  
encourage  
collaboration among  
the project team for

each defined function of the system or product being developed.

## **Free Agile User Story Template - Project Management Docs**

Well, writing better user stories is not dependent on the user story template used. More important than finding the best User Story template, is, every team must

# Get Free Sample User Stories Document

establish a common language that everyone on the team understands. If the essentials are met, the user story template used doesn't matter much.

## **How to Write Good User Stories? User Story Examples ...**

The format of a user story is: As a < type of user >, I want to < feature/function > so that < reason/benefit

Using User Stories to Document Requirements. User stories are a way to describe the requirements at a level of detail that fits perfectly in a sprint backlog, but also in the Product Backlog. When it comes to requirements for the next 1-3 sprints, they are often expressed in the form of user stories.
