The Norm Chronicles Stories And

In The Norm Chronicles, journalist Michael Blastland and risk expert David Spiegelhalter explore these questions through the stories of average Norm and an ingenious measurement called the MicroMorta - a one-in-a-million chance of dying. They reveal why general anesthesia is as dangerous as a parachute jump, giving birth in the US is nearly twice as risky as in the UK, and that the radiation from eating a banana shaves three seconds off your life.

The Norm Chronicles: Stories and Numbers About Danger and ...

Norm is the average man who uses reason and probability/statistics to traverse the challenges of life. Prudence is extremely risk averse and views the world through a lens of fear. The Kelvins are the risk-takers, the daredevils. Each chapter is themed on an important part of everyday life associated with risk.

norm chronicles

— Michael Blastland, The Norm Chronicles: Stories and Numbers About Danger and Death “One accident that kills, say, 10 people gets far more attention than 10 accidents that kill 1 each. The 876 people each year who die on US tracks usually have little publicity, but imagine if they all occurred at once....”

The Norm Chronicles Quotes by Michael Blastland

In The Norm Chronicles, journalist Michael Blastland and risk expert David Spiegelhalter explore these questions through the stories of average Norm and an ingenious measurement called the MicroMort-a one in a million chance of dying.

The Norm Chronicles : Stories and Numbers About Danger and ...

Accessible yet deep, The Norm Chronicles explains how statistical regularities and irregularities are central to every aspect of our lives. If Jonathan Coe and Gerd Gigerenzer were to collaborate on a sardonic self-help book, this is what it might look like.
