Configure Display Settings for a Virtual Machine You can specify monitor resolution settings, configure multiple monitors, and select accelerated graphics capabilities for a virtual machine. You can use the multiple-monitor feature when the virtual machine is in full screen mode.

Configure Display Settings for a Virtual Machine

I get no option to change the size of the resolution - in this picture WinPE is expanded to (what Hyper-V thinks is) full screen and as you can see the text is really small. If I enter "Full screen mode" the VM screen displayed stays the same size and is just centered and surrounded by massive black borders.
